**ATLAS-APEX ROOFING INC. PROUDLY ANNOUNCES THEIR RECENT EXPANSION IN MONTREAL, QUEBEC**

*Through their recent alliance with Toitures Brault, a highly regarded third-generation commercial roofing contractor in Saint-Jean-Sur-Richelieu, near Montreal, Atlas-Apex Roofing is taking their expansion plan to a new level, and further strengthening the foundation of their national operations in one of Canada's largest commercial roofing hubs.*

Atlas-Apex Roofing Inc., a wholly-owned subsidiary of The Atlas-Apex Roofing Group of Companies, is proud to announce their recent expansion into the Quebec commercial roofing market, with the addition of a well-established and highly successful partner, Toitures Brault. Founded in 1949, and based in Saint-Jean-sur-Richelieu, a suburb of Montreal, Toitures Brault specializes in industrial, commercial and institutional roofing, bringing with them a strong history and a wealth of experience. Since 1995, they have been under the expert guidance of President Marc Brault, who is the grandson of Omer Brault, the company's original President and founder.

"We are very excited to be partnering with Marc and his team at Toitures Brault. With their rich history and local expertise in the Quebec market, combined with the national coverage and industry-leading capabilities that Atlas-Apex provides, we are expecting a huge success for everyone involved-most of all our valued customers." says John Petrachek, President and General Manager of Atlas-Apex Roofing Inc. Marc Brault echoes that sentiment, adding "We are extremely pleased to be a part of the Atlas-Apex Roofing Group of Companies. With over 65 years of experience, we are very proud of the history, accomplishments and culture of Toitures Brault. Though both companies are certainly unique, we share many similar qualities which have been the key factors to our success individually, and even more so when combined."

This recent expansion, the latest milestone in a multi-year national growth plan, is another way that Atlas-Apex Roofing continues to provide their customers with the best roofing experience in the business.

Established in 1928, and as a founding member of the OIRCA in 1964, Atlas-Apex Roofing Inc. has grown from a small local roofing company operating in the Toronto area, to one of the largest roofing contractors in Canada. With their corporate head office in Toronto, and additional full-service branches in Ontario, Saskatchewan, Newfoundland, Quebec and BC, they have been providing their customers in the industrial, commercial, and institutional (ICI) markets with the highest level of service and expertise for over 85 years.
